It is an important contribution to the understanding of the mental and spiritual world of Japan just over two generations ago. The author argues that just as the period of isolation up to the middle of the 19th century was crucial for Japan's development, so the Second World War represented another crucial period for the country. These years were a period of intellectual isolation during which significant development took place. An Intellectual History of Wartime Japan, 1931-1945 book.
